

Rainforest Coding Activity Help Sheets

module 6 activity 19 & 21 Finding the jet fuel (parts 1 and 2)

The fuel containers must be moved to the greg robot. The mine robot will do all the work!

1) Move the lamp sprites around the room to where you want the mine robot to dig or make a robot lift.

2) Drag the special code blocks inside the 'if touching sprite' blocks.

The Level 2 Warehouse Screens - Possible solutions (Robot routes)
