module 2

activity 7

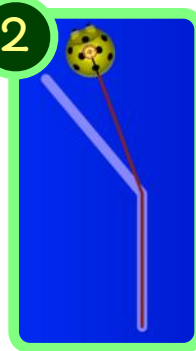

The Prison Door

1

1) The program needs to move the laser beetle along the blue line drawn by Doctor Han.

2

2) However, there is a

bug in the program. Click the green flag to run the program to see where the beetle goes wrong.

3

3) Change a value on one of the blocks, so it follows the line. Then switch the laser to full power and run the program again.
